

SALES AND MARKETING (SAM) COMMITTEE is responsible for the annual SAM Awards & Gala Banquet, the East Coast's most prestigious program for new home sales and marketing achievements. The SAM Awards recognize the builders and their associates who have made major contributions to promoting new housing in New Jersey.

AFFILIATES

BUILDERS POLITICAL ACTION COMMITTEE supports candidates who promote policies that will provide adequate housing and jobs for the state's work force and their families.

FOUNDATION FOR HOUSING supports and facilitates building new residences – particularly redevelopment, green building, and smart growth projects – as well as the rehabilitation and improvement of existing structures, increasing energy efficiency and sustainability, and improving access for: families of modest means, those who have experienced loss or destruction as a result of tragedy, those within the armed forces who have been injured in service to our country, and those with disabilities.

50+ HOUSING COUNCIL addresses issues of importance to the housing needs of an aging population. The council offers popular educational Breakfast Seminars and provides networking opportunities for those involved in this growing market.

ASSOCIATES COMMITTEE represents the interests of the NJBA's members: those who provide services and products to builders. The committee promotes NJBA's events, recognizes the achievements and contributions of the Associate members and builds relationships between the Associate and Builder members.

CONSTRUCTION CODES COMMITTEE monitors issues relating to building codes, construction standards and materials, construction technology, and code enforcement.

CONVENTION COMMITTEE directs the planning of the Atlantic Builders Convention (ABC), including the trade show, special events, award ceremonies, selection of keynote speakers and celebrity guests, and the new officers installation banquet. The ABC is the most prestigious and important building industry event of its kind on the East Coast.

ENVIRONMENTAL AFFAIRS COMMITTEE examines pertinent environmental issues that influence the building industry in New Jersey. The committee's efforts have resulted in some very significant regulatory and legislative victories for the building industry.

GOLF COMMITTEE is responsible for the successful planning, marketing and advertising of the Annual Golf Outing. This is accomplished by preparing a budget, reporting income and expenses while securing registrations, sponsorships and providing fun prizes/awards for participants.

GREEN BUILDING COMMITTEE has responsibility to: (1) draft legislation incorporating definable, quantifiable and balanced green building practices; (2) analyze existing green building standards; and, (3) create educational and marketing programs that promote green building.

HIGHLANDS COMMITTEE evaluates public policies governing housing and employment opportunities in the Highlands region.

LAND USE AND PLANNING COMMITTEE assesses and responds to developments in the areas of: land use, planning, affordable housing, site improvements and infrastructure, impact fees, taxes and related matters. The committee screens legislative and regulatory proposals, policy interpretations, and solicitations for comments.

LEGAL ACTION COMMITTEE reviews and evaluates litigation, actual or proposed, which may result in the resolution of State or local issues with precedential significance for advancing and protecting the goals and objectives of the homebuilding industry.

LEGISLATIVE AFFAIRS COMMITTEE analyzes and advocates positions on state laws, pending legislation, and regulations affecting building in New Jersey. The committee also develops ideas appropriate for introduction as legislation and promulgates amendments and regulatory changes to protect and promote the interests of the building industry.

MEMBER EDUCATION AND SERVICES COMMITTEE plans and implements NJBA's continuing education program for members, including the technical seminars at ABC. The committee assists local associations in their recruitment and retention of membership.

MEMBER MOBILIZATION TASK FORCE promotes year round grass roots advocacy in support of homebuilding in New Jersey. The Task Force works to identify, inform, educate, and motivate those impacted by housing issues so that they will act to further the interests of the building industry in New Jersey. Essential to the Task Force's function is its work with key employees of member companies who share the industry's message with their co-workers and amplify its voice communicating with State lawmakers.

PINELANDS COMMITTEE monitors activity of the Pinelands Commission and evaluates public policies governing housing and employment opportunities in the Pinelands region.

PUBLIC RELATIONS COMMITTEE responsible for the planning, implementation and oversight of the Association's program of communications, media relations and image building to promote the objectives of the Association and to enhance the public perception of the Association and its members; develops and implements an annual public relations plan setting forth strategies to meet the needs of both external (i.e., the media and general public) and internal (i.e., members) audiences.

REDEVELOPMENT COMMITTEE considers all matters relating to the creation of housing and employment opportunities in previously developed areas. Redevelopment issues have become increasingly important as more members build urban redevelopment projects into their business plans.
