

Testimonials from Satisfied Master Sponsors

"There is no doubt in our mind that the program has a tremendous business value. It has provided us with an exceptional level of visibility among the entire NJBA membership and we could not be more pleased with the results."

Anthony & Company (Sponsor since 1995)

"After attending two Legislative Affairs Committee meetings I have walked away with an incredible amount of new knowledge. Our participation as Master Sponsors is providing benefits that we did not originally identify."

Cowan, Guteski & Co., P.A. (Sponsor since 2007)

It is an honor and privilege to serve as a Master Sponsor to the NJBA. The exposure to the building industry that we obtain is invaluable."

Giordano, Halleran & Ciesla (Sponsor since 1991)

"Master Sponsorship provides tremendous professional and personal benefits for our firm and individual attorneys across various practice areas. The New Jersey Builders Association has worked diligently to provide us exposure to all the players within the building industry, giving us the opportunity to expand our practice while assisting the Association in its efforts to protect the building industry. Our strongest endorsement of the program is shown in our efforts to offer the Master Sponsor program to other members of the building industry."

Stark & Stark (Sponsor since 2005)

"The Master Sponsor program is an excellent way to increase your business. It not only gives your company more visibility, but it also shows the builder members that you have a dedication to the industry and are willing to invest in its future. Since joining the program our mortgage company loan volume has increased 350% in the New Construction Market."

Wells Fargo Home Mortgage (Sponsor since 1997)

"The Master Sponsor program has given our attorneys a meaningful opportunity for interaction with the State's major home builders."

Wilentz, Goldman & Spitzer (Sponsor since 1995)

Builder Testimonials

*"I cannot say enough about the Master Sponsor program and its benefits to the entire NJBA membership. As a builder who transacts business with many Master Sponsor companies, I can tell you that our interaction and participation in the program has saved our firm many thousands of dollars - both in real dollars and intangible benefits over the past few years. Of course, an added benefit to the NJBA membership is the tremendous financial support to the association. This has an overall effect of keeping member dues lower while providing a valuable service back to the members. **It's a total 'win - win' scenario.**"*

Michael M. Solondz, Sunrise Communities

*"NJBA's Master Sponsor program has grown to be a major influential force and financial source in promoting and supporting builder-related initiatives. For this alone, it makes good sense to do business with Master Sponsors and we have found that it also makes good business sense. **Support the people that support you!**"*

Stephen J. Hovnanian, J.S. Hovnanian & Sons, Inc.

"Without the substantial financial support of our Master Sponsors, we as homebuilders in New Jersey could not survive. The Master Sponsors have stepped up to the plate to assist our industry so that we can continue to fight the increasing bureaucracy that is making it extremely difficult to provide the needed housing in New Jersey."

Peter Blicher, President, Westrum Pennington, LP

*"Piersol Homes is extremely grateful for the support of the Master Sponsors. Master Sponsors are just another member benefit of the NJBA. Their dedication and financial support in builder related topics are just a few of the reasons that make it a must to become a member of the NJBA. **We appreciate your continued efforts.**"*
